Profile Summary

Goal-driven B.Tech graduate with expertise in Cloud Computing and DevOps. Seeking an entry-level Cloud Computing & DevOps Engineer position to apply technical knowledge from hands-on projects and Intellipaat Online Training. Experienced in implementing CI/CD pipelines and containerization for deployment improvements.

Education

Sanjeevan Engineering & Technology Institute, Kolhapur.	Kolhapur, Maharashtra
Bachelor of Technology in Computer Science and Engineering (CGPA-8.3)	2019-2023

Skills

Programming Languages – Python, Bash

Cloud Computing – AWS EC2, AWS IAM, AWS S3, AWS Lambda

DevOps Tools – GitHub, Jenkins, Docker, Kubernetes, Ansible

Databases- MySQL

Operating Systems: Linux

Soft Skills – Communication skills, Problem-solving, Attention to detail, Time management, Teamwork and collaboration

Projects

[Automated CI/CD Pipeline for Containerized Web Application](#)

- **Tools:** Docker, Git, Jenkins, Ansible
- **Automated Docker, Git, and Jenkins setup** using Ansible.
- Established **Git branching strategy**, reducing deployment errors by **30%**.
- Configured Jenkins for **automated builds, tests, and deployments**, reducing deployment time by **40%**.
- **Outcome:** Enhanced deployment automation, **reliability**, and **scalability** by **50%**.

[Automated Containerized Deployment for Web Application](#)

- **Tools:** GitHub Actions, Docker, Kubernetes
- **Implemented CI/CD** with **GitHub Actions** for **streamlined workflows**.
- Created **custom Docker images**, reducing build times by **35%**.
- **Managed scalable deployments** with **Kubernetes**, improving scalability by **40%**.
- **Outcome:** Improved deployment **efficiency** and **reliability**.

Certifications

- [Intellipaat DevOps Certificate\(2024\)](#)
- [Intellipaat AWS Certificate\(2024\)](#)
